ONSITE SYSTE	M INSPECTION FORM
Inspection Overview: Preliminary system information Inspection of treatment tanks Absorption system inspection Disposal/conveyance system assessment Identification of any alternative technol - Requires additional inspection	
Client Name: Different from owner? () Yes () No Client Address: Contact Method: Home tel. Work tel. E-mail	Date:
Preliminary Information: Weather: Last Precipitation: Age of System: Type of Dwelling? () Residential Number of Bedrooms: () Non Residential Describe: How many systems are being inspected? List any commercial activities or high impact hobbies:	Is there a site plan or septic map available? Is the dwelling currently being occupied? If so, how many occupants? If no, date last occupied? If there is a washing machine, is it connected to a separate greywater disposal system? Is the dwelling free of additional greywater systems? Is the dwelling free of garbage disposal
Describe prior problems and/or repair history including soil fracturing or use of chemical additives. Include dates and explain why the remedial measures have been applied to the system (if available):	systems? Is the dwelling free of sump pump discharges to the system? Is the dwelling free of any historical sewage back ups into the structure? Does all sewage enter the septic system and no type of sewage bypass exists? () () () ()
Date file review requested with administrative authority:	Septic Tank Pumping: Is the septic tank pumped regularly? Frequency: Date of Last Pumping: Was file review completed prior to inspection? If no, explain why below.
Comments:	

Treatment Tank:		Yes	No
() Septic Tank () Other	Main tank lid opened for inspection?	()	()
() Greywater () Multi-Compartment:#	Liquid level below the tank's inlet invert?	()	()
	Liquid level below the tank's outlet invert?	()	()
Name the material of the system?	Treatment tank pumped for this		
() Concrete () Block	inspection?	()	()
() Steel () Other	Are all portions of the tank(s) clear of		
	structures like a deck or a driveway?	()	()
Approximate treatment tank volume: gal.	Is the area clear of evidence that sewage		
	has surfaced above the treatment tank?	()	()
Evaluate the conditions of tank below:	Does water flow unimpeded from the		
	treatment tank?	()	()
Satisfactory Unsatisfactory N/A	Is an effluent filter a part of the system?	()	()
Top and Lids () ()	If yes, does it appear properly		
Inlet Baffle () () ()	maintained?	()	()
Outlet Baffle () () ()	Are there any other types of accessory	· ·	~
Cracks or Leaks () ()	units present?	()	()
Sewage Flow from	Depth to top of tank: inches	· ·	·
Structure () () ()	Depth to top of tank access: inches		
Structure () ()	Comments:		
	Comments.		
Absorption Area:			
() Disposal Bed () Disposal Trench () Seepage Pit () Mounded () Other

Health Department Reporting:
Note if any of the following conditions were observed during the inspection:
 Ponding or breakout of sewage or effluent onto the surface of the ground Seepage of sewage or effluent into portions of buildings below ground Backup of sewage into the building served which is not caused by a physical blockage of the internal plumbing Any manner of leakage observed from or into septic tanks, connecting pipes, distribution boxes and other components that are not designed to emit sewage or effluent
Pursuant to N.J.A.C. 7:9A-3.4 notification of any observation that is consistent with a condition noted above must be reported to the local administrative authority within 24 hours of the observation. Regardless of observations made, a copy of this report must be provided to the local administrative authority within 10 days of the issuance of this report.
If encountered, describe all observed noncompliant conditions encountered during this inspection:
Customer Authorization: I authorize "The Company" to enter the above listed property for the purpose of performing a sub-surface sewage disposal system inspection. I authorize "The Company" to expose parts of the system if required, to determine location and condition. I understand that "The Company" relies on information supplied by the owner(s) of the listed property or their agent and the local administrative authority in the evaluation of the sub-surface disposal system. I authorize "The Company" to provide this form to all parties as required.

Inspector's signature: Printed name:

Disclaimer:

Based on today's observations and the information provided by the owner(s) or their agent, "The Company" submits this sub-surface sewage disposal system inspection form. The inspection is based on the current condition of the onsite sewage disposal system. "The Company" makes no representation that the system was designed, installed or meets N.J.A.C. 7:9A-1.1 et seq.. "The Company" has not been retained to warrant, guarantee, or certify the proper functioning of the system for any period of time. Because of numerous factors (usage, soil type, installation, maintenance, etc.) which affect the proper operation of a sub-surface disposal system, as well as the inability of "The Company" to supervise or monitor the use and maintenance of the system, this form shall not be construed as a warranty by "The Company" that the system will function properly for any prospective buyer. "The Company" disclaims any warranty, either expressed or implied, arising from the inspection of the septic system.

This form was developed as a cooperative effort of:
Pennsylvania/New Jersey Sewage Management Association;
Rutgers Cooperative Extension New Jersey Agricultural Experiment Station; and
The New Jersey Department of Environmental Protection Septic System Inspection Protocol Subcommittee
