

Atlantic County Women's Health Services

Care and compassion for the women of our county

Women's Health Services include:

- Pap smear and clinical breast exam by Nurse Practitioner with mammogram prescription as recommended
- Individual counseling and education to reduce the risk of developing breast and cervical cancer
- Blood Pressure screening
- Cholesterol screening
- Hemocult testing
- Follow-up and referral as needed

**For Atlantic County residents aged 18 and over
who do not have health insurance.**

*If you have health insurance with high deductibles
and/or low reimbursement payments
please contact us for further information.*

By Appointment Only
